

5/11/20-- Uinta County COVID-19 Update

DEAR UINTA COUNTY: THANK YOU!

--Community Generosity is Heart-Warming and a Little Mind-Blowing

Neighborhoodly kindness and pulling-together is key for any kind of crisis. The way people have stepped up to help and support each other is really awe-inspiring, and we are very grateful.

We've attempted to put a monetary value on all of the donations, volunteer time, and just general goodness to help us understand the impact that all of your help and kindness is worth.

As this thing has developed, we have been doing our best to document and recognize all of the time, materials and food that have been donated.

And here is a conservative estimate of the value of what our county residents have given and done thus far: (drum roll... Honestly, this is going to blow you over... and with no further ado...)

The estimate for value of donations and time is: somewhere around \$125,000!!!

THANK YOU for your goodness, your kindness and your desire to support one another.

THANK YOU for taking a difficult situation, one that can feel scary and uncertain, and making the best of it. THANK YOU for your support and trust and cooperation.

THANK YOU, Uinta County!
