

## ***5/13/20-- Uinta County COVID-19 Update***

### **GOOD JOB US**

#### **--Your Actions Have Kept Our Numbers Low, and Our Communities Safe**

The Governor has often commented on how Wyoming residents in general practice common sense, and take responsibility for themselves and their communities.

We believe that those of us who live in Uinta County reflect those qualities.

We have kept our numbers down, despite close proximity to hot spots in Utah.

So, good job us!

They keep telling us there's a new world, a new normal. So, let's keep up the common sense preventative measures going forward:

Keep wearing masks in public places to protect everyone.

Keep up the good hand washing!

Keep your distance out in public.

And thanks.
